Ladies and gentlemen, fans and friends of the night...

HATE YOU Streetwear presents full of anticipation and modest pride its own and first music festival!

"Nice to HATE YOU"

...so it will be said, when the unholy gates of the Potsdamer Lindenparks open on October 26th 2019. Insiders are already familiar with the club, as the PSYCHOMANIA RUMBLE has been taking place there since 2007.

proved and tested - "HATE YOU" is present!

Whoever is on the way to (sub)cultural strangeways, turning up the tide of nights on illustrious events, in distilleries and dives to spend the last pennys, examining situations as a danger seeker, likes to make himself popular, is invited for an interview or is simply interested in (anti)fashion, loves "HATE YOU".

The story of "HATE YOU Streetwear" begins in 1996. The boring T-shirt standard mush makes the own brand a logical consequence. In small editions, the shirts quickly find friends tearing sales. Since the beginning it was clear that there should be no limits for specific scenes. The brands roots range from Punkrock, Hardcore and Metal to Psychobilly, Wave-Gothic or EBM.

Furthermore: "HATE YOU" does not preach dull hatred but is in the psychological field between "love" and "hate".

Since 2001 "HATE YOU" has been an official trademark, but remains streetcredible, true and distances itself from mainstream and mass-produced goods. Original utensil for the individual, unadjusted against the trend.

Come on, lets meet live on and in front of the stage in Potsdamned!

For the first event a very special hot and fiery witch boiler will be fired up. The essence is decisive: Those who know the ingredients have to pay attention to the dosage. A little too little and the brew is too tasteless. If you give too much, the soup is over salted.

Voila, there we have it - as an exclusive menu - a real "Mixtura Explosiva Lindenparka"! Beware diabolically hot and rich in fat!

In the pot 666% Psychobilly bubble - from the creator himself! Deepen the aromas with a decent ladle of Potsdamned Punkabilly. Octane-twisted full-throttle

Punk-n-Roll heats up the consistency, monstrous Psychobilly from Austria raises the balance to the necessary level. Ecstatic trash provides the right kick in the structures.

Live on Stage:

### **THE METEORS (UK) - The Kings of Psychobilly**

After 6 years of abstinence in Potsdam, THE METEORS are now conquering the stage and your lost souls back. Grandmaster and Psychobilly legend P. Paul Fenech is on the unholy boards just in time for his 40th stage anniversary to announce his special "Word for Sunday": OTMAPP - only the Meteors are pure Psychobilly!

### **V8 WANKERS (GER) - Full throttle Punk-n-Roll**

Since 2000, Lutz Vegas and his heavily tattooed dudes octane pregnant along the dirty Punk-n-Roll Highway. For Potsdam the handbrakes are already released and the foot is ready for the unconditional Kick-Down to accelerator. The tyres are smoking...Motorcity Offenbach greets you. A special musical event, which not only leaves deep traces in the asphalt but also in the auditory canals of the fan community.

### **THEE FLANDERS (GER) - Psychobilly/Punkabilly from Potsdamned**

If hell is closed because of overcrowding, then the undead will play on earth again.

Thanks to their home advantage, the 4 Potsdammers don't have to go far. The Lindenpark house band belongs to one of the most successful Psychobilly- / Punkabilly bands of our country and is always welcome. In the luggage the best of the last 2 decades, a few known cover songs to bawl along and perhaps also the one or the other track from the upcoming release. Let us be surprised....

### **THE MONSTROSITIES (AT) - Psychobilly of Austria**

The area around Vöcklabruck seems to be haunted. Maybe at some point a barrel with dangerous substances leaked into the drinking water. Otherwise it is probably not explainable that there are over and over again wicked Psychobilly bands emerging there and pushing the scene forward. The most recent representatives are THE MONSTROSITIES. A fresh board with the best Psychobilly has to offer. Sunglasses on, styled hair, instruments at hand and off we go at full throttle to Potsdamned.

### **KONE KRAWALL KLUB (GER) - One Man Psychotrash from Leipzig**

The Leipzig One Man Trash sensation has been playing his ass off for some time already. Kone strikes wildly into the detuned guitar, drums his drums and blows crazy and with weird tones into the old harmonica. In addition the mangy iron rubbing voice from 20 butts and many Sternburg beers. Exactly what we need to open the evening!

The Lindenpark offers the ideal location for this festival with its convenient transport connections, a correspondingly large stage area as well as the great sound and lighting system. Of course, this also includes the all-round supply of food and drinks - naturally in the form of pilsner, high-proof and mixed drinks. In addition, a corresponding range of "HATE YOU" merchandise, records and band merchandise can be expected. This means fun and variety before, during and after the shows. Those who find all this "too colourful" in the truest sense can sit comfortably at the bar or inspect the barbecue stand in the adjacent outdoor area.

"NICE to HATE YOU"... Potsdamned calls you!
